> 1. $5.2+1.6=\square$
> 2. $653 \div 8=\square$
> 3. $\frac{5}{12}+\frac{1}{3}=\square$
> 4. $784-220=\square$
> 5. $839 \times 18=\square$
> NUMBER WORK

1) ___ seconds $=1$ minute
2) $\quad 1$ hour $=\ldots \quad$ minutes
3) $\underline{60}$ seconds $=1$ minute
4) 1 hour $=60$ minutes

- Make a list of 5 activities.
- How long do you think they would take? Make a prediction.
- Do the activity and check how close your prediction was.

| Activity | Prediction | Test | What's the difference? |
| :--- | :--- | :--- | :--- |
| Write my name 5 times | 10 seconds |  |  |
|  |  |  | 2 seconds |
|  |  |  |  |
|  |  |  |  |

## TIME <br> INVESTIGATION

- Make a list of activities that you think would take approximately 1 second, 1 minute, 1 hour or 1 week.

| 1 second | 1 minute | 1 hour |  |  |
| :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
